

## JOHN MACHON

### Key Skills:

John has 4 years of experience working in the field on site investigation contracts. He has worked on many types of site investigation projects, utilising an array of drilling methods. His time is predominately spent working as a Driller on our cable percussive and rotary drilling rigs, as well as undertaking dynamic sampling with either Terrier or Geotool Rigs. Relevant experience includes assisting with installation and monitoring of standpipes, piezometers and inclinometers for groundwater levels, ground movements and ground gases.

John has a proven ability to assist with all aspects of site work to ensure the smooth progression of drilling and installation operations.

### Proposed Role:

Driller

### Total Experience:

4 Years

### Training:

Personal Track Safety (PTS).  
Certified Member of the Construction Skills and Certification Scheme (CSCS).  
First Aid at Work.  
C.A.T and Genny Training.  
Health and Safety Awareness.  
Environmental Awareness Training.  
Fire Safety Training.  
Manual Handling Training.

### Selected Career Successes:

- July 2007 to present, working as a second man for cable percussive, rotary and window sampling investigations, varying in depths of up to 45m bgl and diameters up to 250mm requiring the installation and long term monitoring of piezometers and inclinometers.
- July 2008 – over water window sample investigation on the Olympic Park.
- August 2008 – undertaking cores, plate bearing test and rotary boreholes on the Victoria Station Platform investigation.
- September 2009 – Cable Percussive Archaeological investigations at the Olympic Park.

### Role And Responsibilities:

- Assisting in the execution of field based intrusive site investigation operations to specification.
- Installation and monitoring of standpipes, piezometers, extensometers and inclinometers.
- Ensuring operations are carried out safely with due regard to the environment.

## Certificate of Training

This is to certify that:

**J. MACHON**

has attended a course of basic instruction on:

### **AVOIDANCE OF UNDERGROUND SERVICES (CAT & GENNY)**

The course covered the above category  
to help satisfy statutory health and safety requirements and included:

- Legal requirements and layout of main components
- Visual and running pre-use checks
- Operation and safe use of all controls and after use checks
- Operator servicing responsibilities including daily and weekly checks
- Awareness of risks and precautions to observe in a working environment
- Being assessed on practical and theoretical ability to detect, using the CAT and GENNY in a safe and satisfactory manner to an appropriate and consistent standard.

*Status:* Operative

*Certificate Number:* A5493-7

*Valid Until:* 18<sup>th</sup> June 2014

*Course Date:* 19<sup>th</sup> June 2009

*Location:* Wymondham
